Attorney General John Ashcroft
US Department of Justice, 950 Pennsylvania Avenue, NW
Washington, DC 20530-0001

Dear Mr. Ashcroft:

I have been a computer user since 1980 and clearly remember having 7 operating systems for my computer. There was one for each application. Microsoft eliminated the agony and chaos.

Please honor the in-place agreement that will allow you, Microsoft, and the rest of the country get back to work. There are more important things to do.

cc: Senator Rick Santorum

Sincerely,

Harvey Salwen
